Size (Feet)	Cabin Single Glazed	Extra Opening Single Glazed Window	Pedestrian Door	Wood Preserver Treatment	Tiles
Garage 17x10w	£6250.00	£300	£295	£425	£850

A Floor is available £695.00 Extra

FELT: All buildings are supplied with green mineralised felt. To further enhance the appearance of your garden building we offer a range of attractive felt roof tiles.

TREATMENT: All interlocking buildings are supplied untreated. We would recommend an application of wood preserver to prolong the life of the building soon after installation. Please note that painting the building in the first 12 months may prevent it from expanding and contracting which may result in gaps and /or leaking.

PRICES: Include local delivery and installation.

BASES: We recommend that a minimum of a slab or concrete base is used for all interlocking buildings. Any buildings that require packing due to uneven or unlevel bases may incur additional charges on installation. The Log Cabin Company will not be responsible for the movement of buildings requiring packing due to uneven bases.

BUILDING SIZES: Sizes are measured in imperial and are approximations only for product identification.

PLEASE NOTE: Installations are on the understanding that a pre-prepared firm, level base is provided. It is entirely the customers responsibility to assess the quality, suitability and location of the base. No responsibility will be accepted for any misalignment or the stability of any building installed on an unlevel or inadequate base.
